PrehKeyTec

RMS Keyboard

Rugged Reliability

*A*re your designs being compromised by less than adequate keyboards?

- 30 Million actuations guaranteed
- Superior lifespan reduces replacement costs and down time
- Dual filter design protects inner components from foreign debris and liquid

Confident Usability

*I*s your keyboard easy to use for trainees and experienced associates?

- Programmed keys reduce keystrokes and operator errors
- Keyboard housing can include your logo or your customer's logo
- One cable instead of 3; MSR, Integrated Touchpad and Keyboard

This keyboard was designed to make RMS Software easier to use for retail applications and increase the value of the POS solution. By eliminating keystrokes, the keyboard speeds transactions allowing clerks to process more customers and reduce lines. In addition it reduces training time allowing clerks to become more productive, faster.

"Hot keys" are tailored with embedded programming for automation of the most common RMS functions. The colored key caps provide a more professional look and feel while allowing the user to easily locate the required task.
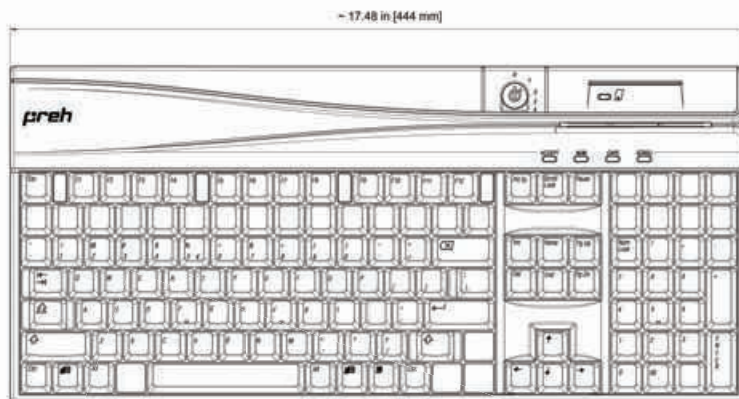

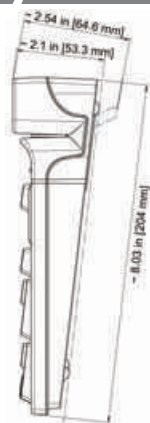

Stuck keys – impossible
Ugly equipment – gone
Learning curves – shorter
Counter space – increased
Down lanes – rarely
Cable management – simplified
Store image – reinforced
